

Structure

IRAGU EVENTS — WEBSITE REVAMP MASTER BRIEF

Website

[www.iraguevents.com](https://www.iraguevents.com?utm_source=chatgpt.com)

Primary objective

Transform the website from a basic event-decoration website into a premium, modern, conversion-focused Event Planning & Management website that:

1. Builds trust within 5 seconds
2. Clearly communicates what Iragu Events does
3. Positions Iragu as a complete event partner, not just a decorator
4. Showcases real projects professionally
5. Generates WhatsApp/phone enquiries
6. Attracts both people and brands
7. Supports Google/SEO discovery for South Tamil Nadu
8. Reflects the quality of the actual work Iragu Events delivers

1. CORE BRAND POSITIONING

Primary headline

Helping People & Brands Create Stress-Free Events

Supporting statement

From customised décor to complete event planning and execution, Iragu Events takes complete responsibility for bringing your vision to life.

Strong USP

****We're not just event decorators.**

We're your complete event partner.**

Brand promise

Your Vision. Our Creativity. Complete Event Responsibility.

This should become one of the strongest recurring messages throughout the website.

2. WEBSITE LOOK & FEEL

The website should feel:

Premium

Elegant

Modern

Creative

Trustworthy

Emotional

Professional

South Indian but not overly traditional

Luxury without looking expensive/unapproachable

Avoid

- ✗ Generic event template
- ✗ Too many animations
- ✗ Excessive gradients
- ✗ Clip-art icons
- ✗ Stock photographs
- ✗ Too much text
- ✗ Cheap-looking package cards
- ✗ Excessive green everywhere
- ✗ Crowded layouts

Use

- ✓ Large real event photography
- ✓ Cinematic event videos
- ✓ Clean typography
- ✓ Lots of white/negative space
- ✓ Peacock green as an accent
- ✓ High-quality project photography
- ✓ Subtle animations
- ✓ Elegant transitions
- ✓ Large typography
- ✓ Strong CTA buttons

3. HOMEPAGE STRUCTURE

This is the most important page.

The homepage should follow this flow:

Hero → Trust → What We Do → Customised Décor → Portfolio → Complete Services → How We Work → Case Studies → Testimonials → Locations → CTA

This structure follows current event-planner conversion principles: visitors should quickly understand the service, see proof, understand the process and have an obvious next step.

SECTION 01 — HERO

Full-screen cinematic background video.

Use your best 5–8 seconds of actual events.

Show:

Beautiful décor

Crowd

Stage

Special entry

Lighting

People enjoying the event

Behind-the-scenes execution

Text:

Helping People & Brands Create Stress-Free Events

Complete Event Planning & Management

From customised décor to complete event execution, we take care of every detail — so you can enjoy every moment.

Buttons:

PLAN MY EVENT

VIEW OUR WORK

Small text below:

Nagercoil • Kanniyakumari • South Tamil Nadu & Beyond

SECTION 02 — THE IRAGU DIFFERENCE

Heading

****More Than Décor.**

We Take Complete Ownership.**

Body:

> An event is more than beautiful decoration.

It is planning, coordination, creativity, people, vendors, timelines and hundreds of little details coming together at the right moment.

That's where Iragu Events comes in.

From the first conversation to the final execution, our team takes complete responsibility for your event — giving you one trusted team and one point of contact.

Then show:

PLAN

Understanding your vision

CREATE

Designing the experience

COORDINATE

Managing every detail

EXECUTE

Bringing everything to life

CELEBRATE

You enjoy the moment

SECTION 03 — CUSTOMISED DECOR

This should be a major USP.

Heading

****Your Idea.**

Your Story.

Your Celebration. ******

Subheading:

Customised Décor, Designed Around You.

Copy:

> We don't believe in one-size-fits-all decorations.

We understand your expectations, ideas, theme, personality and budget — and create a décor concept specifically for your celebration.

From elegant minimal setups to grand premium productions, every element is thoughtfully designed to make your event uniquely yours.

CTA:

DISCUSS YOUR IDEA →

Use a beautiful 4–6 image collage of your actual décor work.

SECTION 04 — SERVICES

Heading:

****Everything Your Event Needs.**

Under One Roof. ******

Create attractive service cards.

LIFE EVENTS

Weddings

Birthdays

Baptism

Anniversaries

Baby Celebrations

Engagements

Family Celebrations

CORPORATE EVENTS

Brand Launches

Corporate Gatherings

Conferences

Product Launches

Team Events

Annual Celebrations

PUBLIC & INSTITUTIONAL EVENTS

Government Events

Political Events

Public Events

College Events

Medical Events

Institutional Functions

BRAND EXPERIENCES

Exhibitions

Expo Stalls

Brand Activations

Promotional Events

Experiential Marketing

SECTION 05 — COMPLETE EVENT SERVICES

Heading:

****One Team.**

Every Detail.**

Show a visual grid:

Customised Décor

Stage & Production

- 💡 Sound & Lighting
- 📷 Photography
- 🎥 Videography
- 🍽️ Catering
- 🍰 Cake & Desserts
- 🎵 Entertainment
- 🎁 Return Gifts
- 📅 Guest Management
- ✨ Special Effects
- 📋 Event Coordination

Then:

****You don't need to coordinate multiple vendors.**

We can coordinate it for you.**

SECTION 06 — PORTFOLIO

This needs to be one of the strongest sections on the entire website.

Don't make it one giant random gallery.

Current event-planner best practice strongly favours organizing portfolios so visitors can quickly find work relevant to their own event type.

Heading

****We Don't Just Talk About Events.**

We Build Them.**

Filters:

ALL | WEDDINGS | BIRTHDAYS | CORPORATE | INSTITUTIONAL | EXPO | PUBLIC EVENTS

Every project should show:

Project Name

Location

Event Type

Iragu's Role

Example:

MAGUDAM '26

Kanniyakumari Government Medical College

1300+ Guests | Medical Graduation Event

Then photographs/video.

SECTION 07 — CASE STUDIES

This is where I would make Iragu look significantly more premium.

Instead of only showing photographs, tell the story.

Example:

****2 Hours.**

One Massive Birthday Setup.**

SP Grand Days • Trivandrum

Challenge:

> Complete birthday décor along the pathway, baby entry, special effects, DJ setup and cake arrangement — all within a 2-hour window.

Solution:

> Our team planned the execution down to individual responsibilities, coordinated vendors and prepared the décor elements in advance.

Result:

> The entire experience was executed within the available timeframe.

CTA:

READ CASE STUDY →

Create 6–10 case studies over time.

This turns the website from a photo album into proof of capability.

Case-study storytelling is particularly useful because event clients are buying confidence in your ability to execute, not merely decoration.

SECTION 08 — HOW WE WORK

Heading

****From Your First Idea**

To the Final Celebration.**

STEP 01

Tell Us Your Vision

Share your event idea, requirements and expectations.

STEP 02

We Understand

Our team discusses the event, venue, audience, budget and possibilities.

STEP 03

We Create

We develop the concept, décor and execution plan.

STEP 04

We Coordinate

We manage vendors, logistics, timelines and production.

STEP 05

We Execute

Our team takes care of the event on the ground.

STEP 06

You Enjoy

You focus on your people and your moments.

SECTION 09 — WHY IRAGU?

Heading:

Why People Choose Iragu

Create six premium cards.

CUSTOMISATION

Every event is designed around your vision.

COMPLETE OWNERSHIP

One team responsible for the entire experience.

SINGLE POINT OF CONTACT

No running behind multiple vendors.

CREATIVE EXECUTION

Ideas translated into memorable experiences.

BUDGET CONSCIOUS

Solutions designed around your priorities and budget.

STRESS-FREE EXPERIENCE

You enjoy the celebration. We manage the details.

SECTION 10 — SOCIAL PROOF

Heading

****Don't Take Our Word For It.**

Hear From Our Clients.**

Use actual Google reviews.

Show:

Client Name

Review

Add:

500+ Events?

Only if you can verify the actual number.

Do not put invented statistics.

Trust signals should be genuine and specific; real testimonials and named project proof are especially valuable for event planners.

SECTION 11 — BRANDS WE'VE WORKED WITH

If you have permission to display client logos, create:

****Trusted By People.**

Chosen By Brands.**

Use actual client/company logos.

For example, where appropriate:

Hotels

Colleges

Corporate brands

Builders

Government/institutional organizations

Event partners

Don't use logos without permission.

SECTION 12 — LOCATIONS

This is important for your SEO strategy.

Heading

Creating Events Across South Tamil Nadu

Primary:

Nagercoil | Kanniyakumari | Tirunelveli | Tenkasi | Madurai | Trichy

Then:

And wherever your event takes us.

Later create dedicated SEO landing pages such as:

Event Planner in Nagercoil

Event Planner in Kanniyakumari

Wedding Planner in Nagercoil

Birthday Decoration in Nagercoil

Event Management Company in Kanniyakumari

Corporate Event Management in South Tamil Nadu

Location-specific pages are a common recommendation for event-planner sites that want to capture local search demand.

SECTION 13 — FAQ

Very important for Google/search and customer objections.

Example questions:

What types of events does Iragu Events manage?

Do you provide customised décor?

Do you provide complete event planning?

Can you manage multiple vendors?

Do you provide catering?

Do you provide photography and videography?

How much does event decoration cost?

What is the starting price for decoration?

How early should I book my event?

Do you travel outside Nagercoil?

SECTION 14 — PRICING

Don't create a rigid price list because your business is customised.

Instead:

****Every Event Is Different.**

Your Quote Should Be Too.**

Décor packages start from:

₹20,000+

Then:

> Our customised décor pricing depends on the venue, theme, setup size, floral requirements, décor elements and level of customisation.

For complete event planning:

> Complete event packages are customised based on your event requirements.

CTA:

GET MY CUSTOM QUOTE →

This is much better than displaying dozens of fixed packages.

SECTION 15 — FINAL CTA

Make this visually powerful.

Planning Something Special?

****Tell Us Your Idea.**

We'll Take Care of the Rest.**

Whether it's an intimate family celebration or a large-scale brand event, our team is ready to bring your vision to life.

START PLANNING →

WhatsApp

Call

Instagram

4. ENQUIRY FORM

This is extremely important.

Don't make the form:

> Name

Email

Message

That's too generic.

Use:

Let's Plan Your Event

Name

Phone / WhatsApp

Event Type

Dropdown:

Wedding

Birthday

Baptism

Anniversary

Corporate

Expo

Institutional

Public Event

Other

Event Date

Venue / Location

Approx. Guest Count

Services Required

- ☐ Décor
- ☐ Complete Event Planning
- ☐ Catering
- ☐ Photography
- ☐ Videography
- ☐ Sound & Lighting
- ☐ Entertainment
- ☐ Other

Approximate Budget

- ☐ ₹20K–₹50K

- ☐ ₹50K–₹1L
- ☐ ₹1L–₹3L
- ☐ ₹3L+
- ☐ Not Decided

Tell us about your event

Button:

GET MY EVENT PLAN →

5. WHATSAPP CONVERSION

This should be everywhere on mobile.

Floating WhatsApp button.

When clicked, automatically populate:

> Hi Iragu Events! 🙌

I'm interested in planning an event.

Event type:

Date:

Location:

Approx. guests:

This reduces friction.

A clear mobile enquiry path is especially important because event websites are often first viewed on phones and users need an easy route from inspiration to enquiry.

6. NAVIGATION

Keep the main menu simple:

HOME

ABOUT

SERVICES

OUR WORK

CASE STUDIES

WHY IRAGU

CONTACT

And a standout button:

PLAN YOUR EVENT

Don't put 15 items in the navigation.

7. ABOUT PAGE

Don't write:

> "Iragu Events was founded with a vision..."

for three pages.

Make it personal.

Heading:

We're Here to Make Events Easier.

Then introduce:

Bezlon G

Founder — Iragu Events

Talk about:

Why you started Iragu

What you believe about events

Your approach

Your team

Your ambition

Your philosophy

Include your professional photograph.

This will also connect beautifully with your personal-branding strategy.

8. PORTFOLIO PAGE

Make it highly visual.

Filters:

ALL

WEDDINGS

BIRTHDAYS

BAPTISM

CORPORATE

INSTITUTIONAL

PUBLIC EVENTS

EXPO & BRAND ACTIVATION

Each project:

IMAGE

EVENT NAME

LOCATION

EVENT TYPE

SERVICES PROVIDED

VIEW PROJECT →

9. CASE STUDY TEMPLATE

Every major project should follow this format:

PROJECT

Client

Location

Event

Guest Count

Services

THE CHALLENGE

What problem did the client have?

OUR APPROACH

How did Iragu solve it?

EXECUTION

What happened behind the scenes?

THE RESULT

What did the client/event achieve?

GALLERY

10–20 excellent photographs.

VIDEO

30–60 second highlight.

CLIENT TESTIMONIAL

Real testimonial.

10. VIDEO STRATEGY

Your website should use video aggressively — but intelligently.

Create:

Homepage hero video

5–8 sec

Brand film

30–45 sec

Event highlight

30–60 sec

Behind-the-scenes

15–30 sec

Case-study videos

30–90 sec

Your event business has a huge visual advantage. Use it.

11. SEO

The developer should implement proper:

Page titles

Meta descriptions

H1/H2 hierarchy

Image ALT text

Schema markup

Open Graph metadata

Sitemap.xml

Robots.txt

Canonical URLs

Google Search Console

Google Analytics / GA4

Conversion tracking

Important keyword themes

Primary

Event Planner Nagercoil

Event Management Company Nagercoil

Event Planner Kanniyakumari

Event Management Kanniyakumari

Life Events

Wedding Planner Nagercoil

Birthday Decoration Nagercoil

Baptism Decoration Nagercoil

Event Decoration Nagercoil

Corporate

Corporate Event Management Nagercoil

Corporate Event Planner Tamil Nadu

Exhibition Stall Design Nagercoil

Don't stuff keywords into pages. Build useful, specific pages around actual services and locations.

12. PERFORMANCE

Tell the developer:

Mobile-first.

Not desktop-first.

Requirements:

WebP/AVIF images

Lazy loading

Compressed videos

Responsive images

Minimal unnecessary plugins

Minified CSS/JS

Fast hosting

CDN where appropriate

No autoplay-heavy background video on slow connections

Optimized fonts

The website can be visually spectacular without becoming slow. Image-heavy event websites are particularly vulnerable to performance problems.

13. MOBILE DESIGN

This is critical.

Your customer will probably discover you through:

Instagram → WhatsApp → Website

Therefore on mobile:

Bottom sticky bar:

 CALL |  WHATSAPP |  PLAN EVENT

And every major page should have:

GET A CUSTOM QUOTE

14. TRACKING

Your developer should install conversion tracking for:

WhatsApp clicks

Phone clicks

Enquiry form submissions

Instagram clicks

Email clicks

Portfolio views

Case-study views

CTA clicks

Then you can actually know:

> 1,000 visitors → 75 enquiries → 18 meetings → 7 bookings

That turns the website into a business tool, not just a digital brochure.

15. ADMIN / CMS

Make sure you can update the website without calling the developer every time.

You should be able to add:

New event

New photographs

New case study

New testimonial

New service

New location

Blog/article

This is important because your portfolio will constantly grow.

16. WEBSITE TONE

Tell the copywriter:

Sound like:

Confident + warm + premium + human

Don't sound like:

Corporate + complicated + exaggerated

Avoid:

> "We provide world-class innovative solutions leveraging synergies..."

Instead:

> "You enjoy the celebration. We take care of everything behind it."

Simple wins.

17. BRAND LANGUAGE TO STANDARDISE

Use these consistently:

Primary

Helping People & Brands Create Stress-Free Events

USP

We're not just event decorators. We're your complete event partner.

Customisation

Every event is designed around your vision.

Ownership

One team. Complete responsibility.

Experience

You enjoy the moment. We manage everything behind it.

CTA

Tell Us Your Idea. We'll Take Care of the Rest.

Signature

Your Vision. Our Creativity. Complete Event Responsibility.

18. WHAT I WOULD REMOVE FROM THE CURRENT WEBSITE

I would aggressively remove:

- ☒ Generic template statements
- ☒ Repeated descriptions
- ☒ Excessive text
- ☒ Weak stock images
- ☒ Generic "we are the best" claims
- ☒ Unnecessary animations
- ☒ Random gallery ordering
- ☒ Too many menu options
- ☒ Old/outdated event photographs
- ☒ Anything that doesn't communicate your actual capability

19. WHAT I WOULD ADD

MUST HAVE

- ☒ Hero video
- ☒ Customised décor positioning
- ☒ Complete event planning positioning
- ☒ Portfolio by category
- ☒ Case studies
- ☒ Real testimonials
- ☒ Founder section
- ☒ Services
- ☒ Process
- ☒ Starting price

- ✓ WhatsApp CTA
- ✓ Lead form
- ✓ Location SEO
- ✓ Google reviews
- ✓ Mobile sticky CTA
- ✓ Analytics
- ✓ Fast loading

20. THE MOST IMPORTANT CHANGE

If your developer remembers only one thing, tell them this:

> DO NOT DESIGN THIS AS AN EVENT DECORATION WEBSITE.

DESIGN IT AS A PREMIUM EVENT PLANNING & MANAGEMENT BRAND.

Because that's where I believe Iragu is heading.

Your décor is one part of the capability.

Your real product is:

COMPLETE EVENT OWNERSHIP

That is the story the website needs to sell.

21. THE FINAL CUSTOMER JOURNEY

I want the website to create this exact psychological journey:

Instagram / Google

↓

Beautiful Iragu event

↓

“Wow, they do premium work.”

↓

“Oh, they don't just decorate.”

↓

“They can handle the whole event.”

↓

“They've already done events like mine.”

↓

“Their reviews are genuine.”

↓

“They customise according to my idea.”

↓

“Starting at ₹20K — okay, let's enquire.”

↓

WHATSAPP IRAGU

That is the website's job.

One more recommendation

I would not launch this in one giant project and wait 3 months.

Build it in this order:

Phase 1: Brand + Homepage + Services + Portfolio + WhatsApp enquiry

Phase 2: Case Studies + Reviews + About Bezlon + SEO location pages

Phase 3: Blog/SEO + advanced analytics + remarketing + ongoing portfolio

That lets the website start generating enquiries while the deeper content continues to grow.

And the most important thing: don't use AI-generated/stock event photos to represent Iragu's work. Your real work is your strongest marketing asset. Current event-planner guidance consistently emphasizes real-event portfolios and case studies as core trust mechanisms.

If you hand your developer the above as the master brief, they should be able to turn it directly into the sitemap, wireframe, copy and development scope.

Website reference

<https://urbanmediaevents.com/>

<https://plixoevents.in>

<https://www.utsav-event.in>

<https://www.partycruisersindia.com>

<https://www.meredithevents.com/>

would literally tell your developer:

Website

Take inspiration for

Urban Media Events - Overall structure

Plixo Events - Complete event services

Helios- Corporate/brand positioning

UTSAV - Premium visual design

Aquila - Scale & service presentation

Party Cruisers - Long-term brand positioning

Meredith Events - Luxury storytelling

Combine the best UX principles from these references, but create an original Iragu Events identity using our brand colour, real event photography, our story and our positioning as a customised, complete event-planning company
